

“WHAT THEY SAY ABOUT PROTEUS”

Richard Galloway

As the owner of Enduro Cars Replica C Type JLF 326, I can proudly claim to possess a thing of exquisite beauty, a veritable work of art. The great design houses of the automobile world very occasionally, but rarely, manage to come up with a design that is so artistically and pleasingly perfect that it can claim immortality. The C Type Jaguar and its successor, the D Type, are incontrovertible proof of this claim. Enduro Cars., now Proteus, has managed to recreate what in all respects other than originality, is a perfect clone of the car that Duncan Hamilton drove to victory at Le Mans, and all this at a realistic price, that quite frankly points to something not far short of a miracle.

The quality of the engineering and materials used throughout, the fitment and set up of all that functions and is there to touch, use and enjoy, commands instant attention. One is left with a massive urge to be numbered within the elect of those fortunate enough to have staked their claim to be identified as a person responsible for the birth of such a beautiful car.

The experience of placing an order, of being involved in each and every step in the manufacture, assembly and fitment of your own C Type Replica and being welcomed and included in all that goes on at Proteus under the inspired leadership of Matt Beverley, Chairman of Proteus Cars, leading up to the birth and delivery of your car is indeed a heady experience and the equal of few other highlights in my life.
